**Текст объявления:**

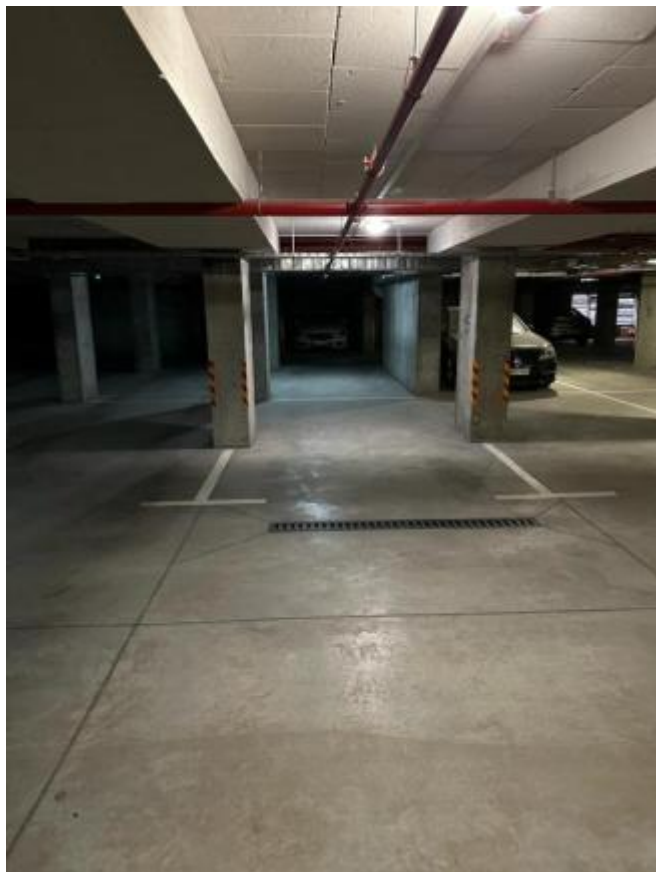

**We are pleased to propose a parking lot in Burgas, Perla community.**

The proposed enclosed parking lot is situated at the -2nd floor of a gated community with an access control.

Buying a car parking lot in Burgas is a profitable investment as it might be difficult to find free parking, while payments for using Green and Blue zones, as well as paid parking require quite much money per

month. Except for it, you can easily rent out the parking lot in a gated community not far from the sea, which will bring you an additional income.
